

PROFESSIONAL SUMMARY

AI/ML-focused B.Tech student with a Diploma in Computer Engineering and hands-on experience in machine learning, deep learning, NLP, and generative AI. Developed practical solutions for healthcare, energy forecasting, and offline education. Seeking an entry-level AI/ML opportunity to apply strong programming and problem-solving skills.

KEY EXPERTISE

Python Machine Learning Deep Learning Generative AI Natural Language Processing
Retrieval-Augmented Generation scikit-learn Pandas NumPy Streamlit PyTorch TensorFlow SQL
Git and GitHub

EDUCATION

MIT Academy of Engineering, Pune B.Tech. - Electronics and Telecommunication Engineering CGPA: 7.90 / 10	2023 - 2027
INDIRA INSTITUTE OF TECHNOLOGY(POLY), Nanded Diploma Diploma - Computer Engineering - Computer Engineering MSBTE Percentage: 87.49 / 100	2024
N.E.S.SCIENCE COLLEGE SHRI NAGAR, Nanded 12 th MSBSHSE Percentage: 94.17 / 100	2021
Pratibha Niketan High School, Nanded 10 th MSBSHSE Percentage: 93.80 / 100	2019

INTERNSHIPS

SmartBridge IT / Computers - Software Artificial Intelligence and Machine Learning Trainee Key Skills: Python Machine Learning Data Preprocessing Feature Engineering Data Visualization Model Evaluation Completed project-based training in AI and machine learning using Python. Applied data preprocessing, feature engineering, visualization, and model evaluation techniques.	16 Jun, 2025 - 05 Aug, 2025
YBI Foundation IT / Computers - Software Python Programming Intern Key Skills: Python Object-Oriented Programming File Handling Exception Handling Problem Solving Data Analysis Developed Python programs using OOP, file handling, and exception handling. Strengthened problem-solving, debugging, and data-analysis skills through practical assignments.	05 Apr, 2025 - 02 May, 2025
LOGIC Computer Education IT / Computers - Software Web Development Trainee Key Skills: HTML CSS JavaScript Responsive Web Design Frontend Development Backend Development Form Validation Database Integration UI Design Completed practical full-stack web development training by building a responsive nature-tourism website. Developed multi-section interfaces using HTML, CSS, and JavaScript, and implemented backend form processing, validation, and persistent data management.	07 Jun, 2023 - 22 Jul, 2023

PROJECTS

GramNet AI: Offline Smart Village Education Assistant

Team Size: 4

Key Skills:

Python Generative AI Retrieval-Augmented Generation TinyLlama Natural Language Processing Speech Interface
Multilingual AI Offline AI

Project Link: <https://github.com/kompalwargangotri/gramnet-ai-tutor>

Developed an offline multilingual educational assistant using RAG and TinyLlama for low-connectivity environments. Integrated text and voice interaction with adaptive quizzes for accessible, personalized learning.

NephroPredict: AI-Based Chronic Kidney Disease Prediction

Team Size: 2

Key Skills:

Python Machine Learning Scikit-learn Random Forest Data Preprocessing Feature Engineering Class Imbalance
Model Evaluation

Project Link: <https://github.com/kompalwargangotri/nephropredict-ckd-detection>

Developed a machine-learning system for early chronic kidney disease prediction using patient health data. Compared classifiers, addressed class imbalance, and identified Random Forest as the best-performing model.

AI-Based Energy Consumption Prediction and Optimization

Team Size: 4

Key Skills:

Python Scikit-learn Support Vector Regression Feature Engineering Data Visualization Streamlit Time Series
Model Evaluation

Project Link: <https://github.com/kompalwargangotri/energy-consumption-prediction>

Built an hourly smart-building energy prediction pipeline using weather, calendar, and building features. Compared five regression models and deployed the best-performing SVR model through Streamlit.

ASSESSMENTS / CERTIFICATIONS

Fundamentals of Deep Learning

Provider: NVIDIA

Key Skills: Deep Learning Neural Networks Model Training Transfer Learning Python

Completed NVIDIA's Fundamentals of Deep Learning program and demonstrated competency in core deep-learning concepts and practical neural-network development.

Claude 101

Provider: Anthropic

Key Skills: Generative AI Claude Prompt Engineering Large Language Models Responsible AI AI Productivity

Completed Anthropic's introductory Claude training covering generative-AI capabilities, effective prompting, AI-assisted workflows, and responsible use.

AI Fluency: Framework & Foundations

Provider: Anthropic

Key Skills: AI Fluency Generative AI Human-AI Collaboration Responsible AI Critical Evaluation Prompting

Completed foundational training in effectively directing, evaluating, and responsibly collaborating with AI systems in academic and professional settings.

CO-CURRICULAR ACTIVITIES

- Presented GramNet AI at the National Level Project Competition (NLPC-26) during B.Tech.
- Participated in the DIPEX 2026 Pune Region Idea Presentation under the Defense Cyber Security theme.
- Presented the Ultrasonic Vision for Blind project at DIPEX 2024 and the MSBTE State-Level Project Competition during Diploma.
