

PROFESSIONAL SUMMARY

AI/ML-focused final-year B.Tech student in Electronics and Telecommunication Engineering with hands-on experience in Machine Learning, Deep Learning, Generative AI, Computer Vision, and NLP. Built AI-powered applications using Python, FastAPI, and Retrieval-Augmented Generation (RAG) for healthcare, education, fraud detection, and intelligent automation. Seeking an entry-level AI/ML Engineer role to apply strong programming, problem-solving, and software development skills.

KEY EXPERTISE

Python Machine Learning Deep Learning Generative AI Natural Language Processing (NLP) Computer Vision
Retrieval-Augmented Generation (RAG) Full-Stack Development Data Structures & Algorithms (DSA) Scikit-learn
TensorFlow PyTorch FastAPI Git GitHub Docker

EDUCATION

MIT Academy of Engineering, Pune B.Tech. - Electronics and Telecommunication Engineering CGPA: 7.90 / 10	2023 - 2027
INDIRA INSTITUTE OF TECHNOLOGY(POLY), Nanded Diploma Diploma - Computer Engineering MSBTE Percentage: 87.49 / 100	2024
N.E.S.SCIENCE COLLEGE SHRI NAGAR, Nanded 12 th MSBSHSE Percentage: 94.17 / 100	2021
Pratibha Niketan High School, Nanded 10 th MSBSHSE Percentage: 93.80 / 100	2019

INTERNSHIPS

SmartBridge (SkillWallet) Remote IT / Computers - Software Artificial Intelligence and Machine Learning Intern Completed project-based AI/ML training using Python, focusing on data preprocessing, feature engineering, model development, and evaluation. Applied Machine Learning techniques to solve real-world problems and build predictive analytics solutions.	16 Jun, 2025 - 05 Aug, 2025
YBI Foundation Remote IT / Computers - Software Python Programming Intern Developed Python applications using Object-Oriented Programming (OOP), file handling, and exception handling. Strengthened debugging, algorithm implementation, and problem-solving skills through hands-on projects.	05 Apr, 2025 - 02 May, 2025
LOGIC Computer Education IT / Computers - Software Web Development Trainee Developed responsive full-stack web applications using HTML, CSS, JavaScript, backend form processing, and database integration. Built interactive and user-friendly web interfaces following responsive design principles.	07 Jun, 2023 - 22 Jul, 2023

PROJECTS

GramNet AI: Offline Multilingual RAG-based AI Tutor Project Link: https://github.com/kompalwargangotri/gramnet-ai-offline-multilingual-rag-tutor Developed an offline multilingual AI tutor using RAG, TinyLlama, FastAPI, FAISS, and SentenceTransformers for low-connectivity environments. Implemented semantic search, multilingual voice interaction, and adaptive quizzes using AI-powered retrieval and LLM response generation.
SecureFin: Video KYC and AML Fraud Detection Project Link: https://github.com/kompalwargangotri/securefin-video-kyc-aml Developed an AI-powered Video KYC system using FastAPI, YOLOv8, Tesseract OCR, and DeepFace for identity verification. Implemented liveness detection and Isolation Forest-based anomaly detection for AML fraud identification.

NephroPredict: AI-Based Early Chronic Kidney Disease Detection

Project Link: <https://github.com/kompalwargangotri/nephropredict-ai-ckd-detection>

Developed a Random Forest model achieving 90.96% accuracy for early Chronic Kidney Disease prediction.

Applied data preprocessing, feature engineering, and model evaluation, and deployed the solution for real-time prediction.

AI-Based Energy Consumption Prediction and Optimization

Project Link: <https://github.com/kompalwargangotri/ai-energy-consumption-prediction>

Developed an AI-based energy prediction system using Machine Learning models, with Support Vector Regression (SVR) achieving 83.7% accuracy.

Built a Streamlit application for real-time energy consumption prediction and visualization.

ASSESSMENTS / CERTIFICATIONS

Fundamentals of Deep Learning

Provider: NVIDIA

Learned deep learning fundamentals, neural networks, image classification, and model training, validation, and evaluation techniques.

Advanced Course on Green Skills and Artificial Intelligence

Provider: Edunet Foundation (under Skills4Future Program in collaboration with AICTE & Shell India Markets Pvt. Ltd.)

Learned Python programming, Machine Learning, Deep Learning, Generative AI, and sustainable AI applications through hands-on model training and evaluation.

Claude 101

Provider: Anthropic

Learned prompt engineering, Large Language Models (LLMs), AI-assisted workflows, Natural Language Processing (NLP), and Generative AI applications.

AI Fluency: Framework & Foundations

Provider: Anthropic

Learned AI fundamentals, AI collaboration, model evaluation, and responsible AI practices.
